A romance from 100 years ago  
that feels modern and urgent,  
while having the wit and vibe of  
DOWNTON ABBEY

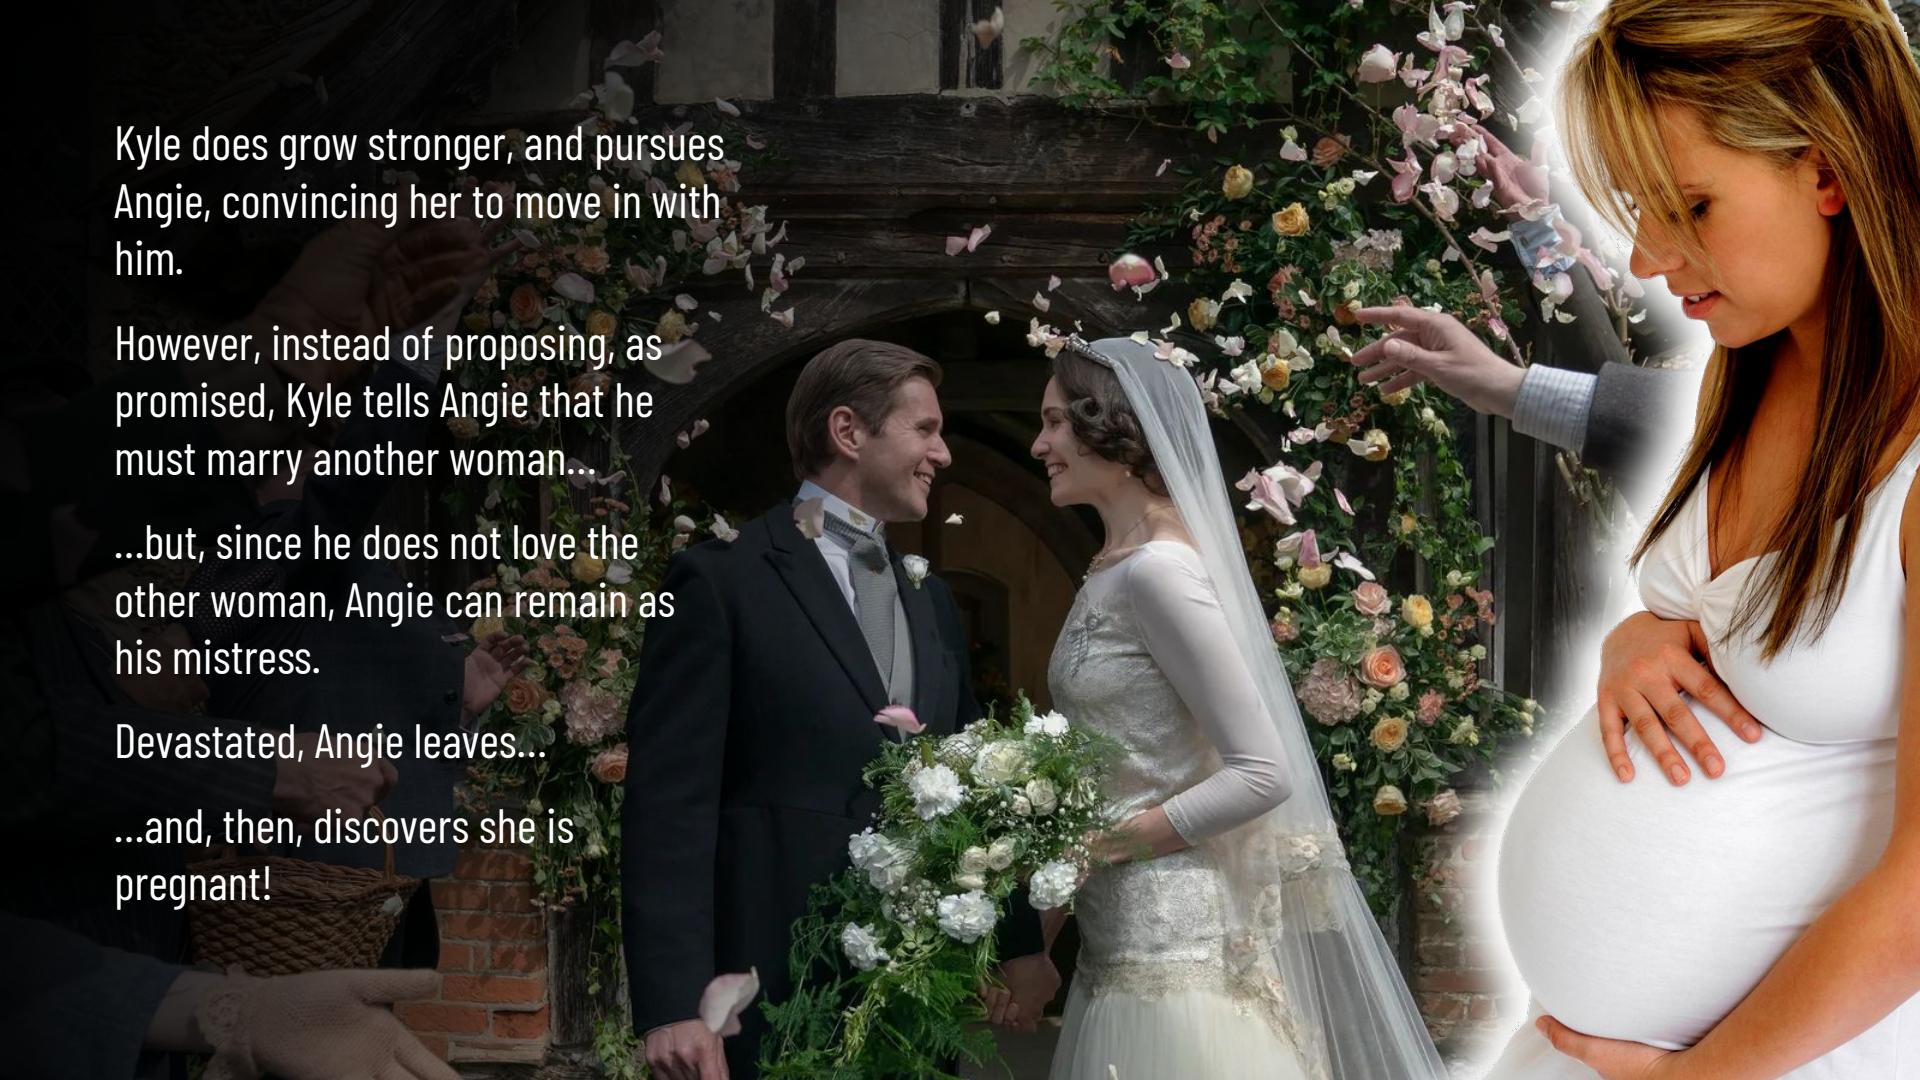

An aerial photograph of a residential area, likely in the United Kingdom, featuring large, red-brick houses with multiple gables and dormer windows. A prominent feature is a large, ornate building with a red brick facade and a white stone entrance, possibly a school or a grand residence. To the right, a Gothic-style church with a tall spire and a large arched window is visible. The area is densely packed with trees and greenery, creating a sense of a well-maintained and peaceful neighborhood.

Angie is a girl growing up in  
an earthly paradise, where  
everything seems perfect.

A studious girl, Angie is tapped to read stories to Kyle, the enigmatic heir of House Blackwell, the ruling family of the island. But despite their hours alone, Angie never lays eyes on Kyle. The sickly royal is hidden behind a grate.

Still, they manage to fall in love. Kyle promises marry her someday.

Kyle does grow stronger, and pursues Angie, convincing her to move in with him.

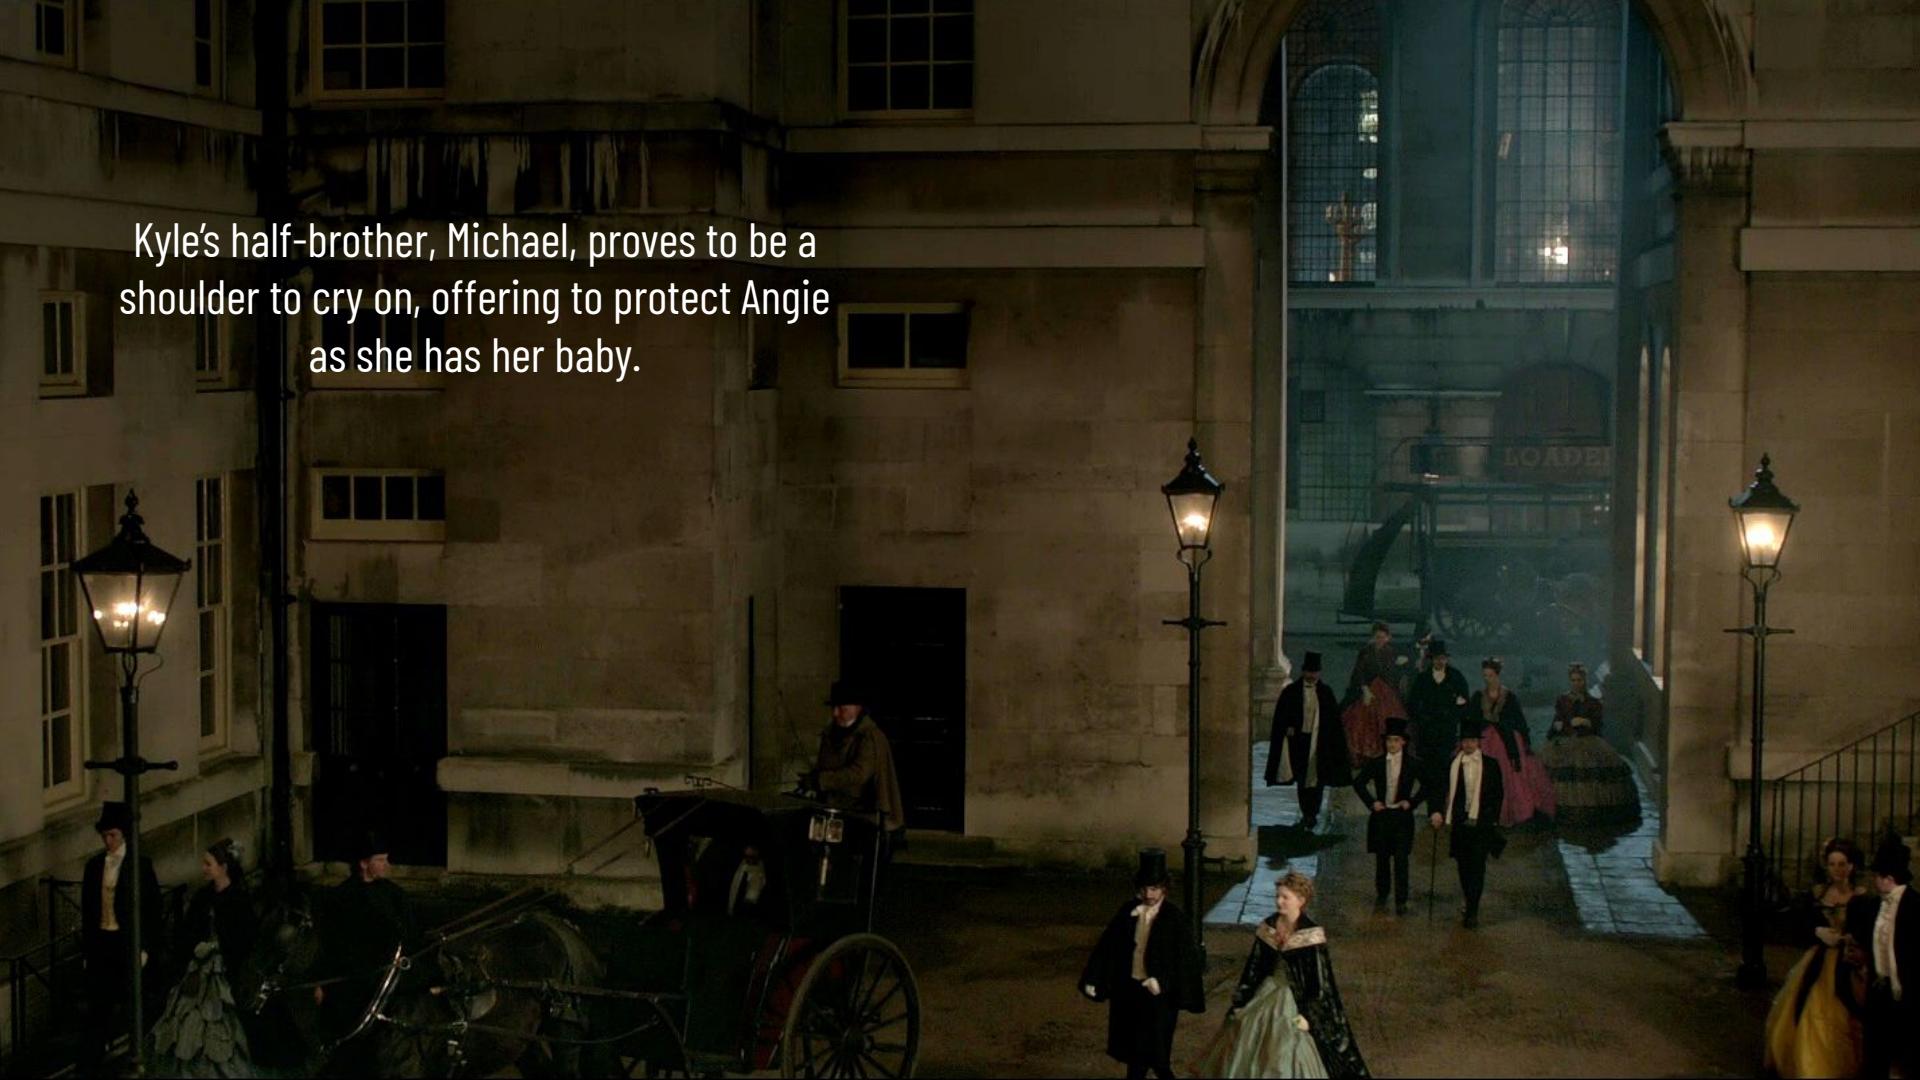

However, instead of proposing, as promised, Kyle tells Angie that he must marry another woman...

...but, since he does not love the other woman, Angie can remain as his mistress.

Devastated, Angie leaves...

...and, then, discovers she is pregnant!

Kyle's half-brother, Michael, proves to be a shoulder to cry on, offering to protect Angie as she has her baby.

A close-up photograph of a newborn baby with dark hair and a small birthmark on the forehead. The baby is wrapped in a white, textured blanket and is being held by a person whose arm and shoulder are visible on the right side of the frame. The person is wearing a dark-colored shirt and a pair of black-rimmed glasses. The lighting is soft and focused on the baby's face and upper body.

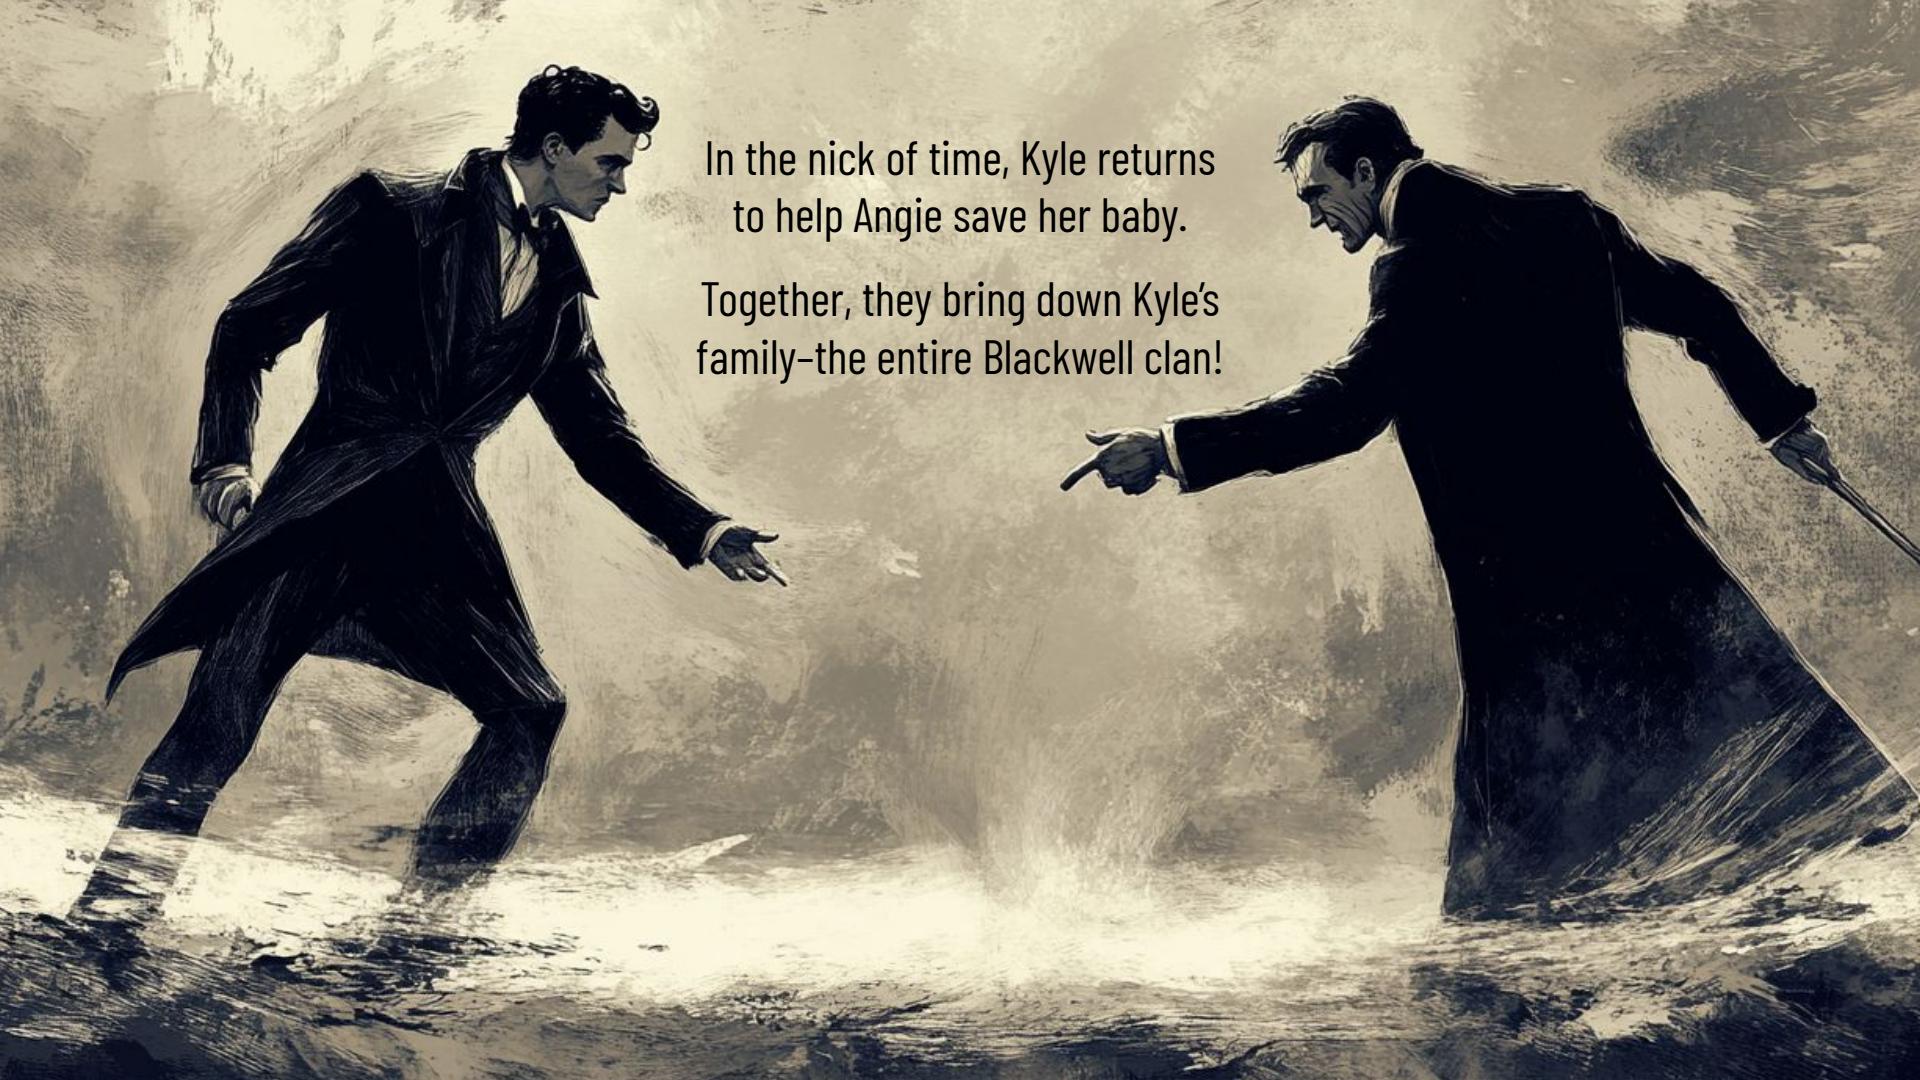

When the baby comes,  
however, Michael's loving  
demeanor turns to cruelty,  
as he tries to kidnap her  
child.

But why?

A woman with long brown hair, wearing a dark, tattered dress, holds a baby wrapped in a light-colored cloth against her chest. She is in a dimly lit room with two lit candles in the background. The scene has a dark, gothic atmosphere.

The Blackwell family,  
Angie learns, have  
discovered a rite of Black  
Magic to use the blood of  
a first-born child to grant  
immortality to an adult.

Michael manipulated  
Angie to try to sacrifice  
her baby in such a  
magical ritual so he could  
be imbued with  
immortality!

In the nick of time, Kyle returns  
to help Angie save her baby.

Together, they bring down Kyle's  
family—the entire Blackwell clan!

Exposing the black magic rituals destroys the nobles and abolishing the current noble system which has bound his family for generations.

Kyle admits he married according to his family wishes to save Angie and his child from the family's cursed ritual. Kyle's wife, however, was murdered by his family because she could not have children (which is why he felt comfortable marrying her).

In the end, Kyle and Angie live the rest of their lives in another country as wealthy merchants, where no one knows about his old family name, or the Blackwell's secret.
